Fifteen years ago, a small group of students from Hamilton's St. Mary Catholic Secondary School travelled to the Dominican Republic to make a difference in the world. That difference became D.R.E.A.M.S., a Christian service project that transports dozens of students each year to the Dominican Republic to build houses in impoverished rural areas. Our local Continental Currency Exchange team was on hand this year to lend support, with special packages created for the participating students and Chaperons which contained a VIP card, and information on the Dominican Republic.
